

21COE Lecture

Dr. Irena G. Stara

**Institute of Organic Chemistry and Biochemistry,
Academy of Science of the Czech Republic, Prague**

"Chemistry of Helicenes and Their Congeners"

Dr. Stara is a senior scientist and a project leader of the group of organic synthesis. Recently, an original approach to helicene frameworks by using transition metal catalysis has been developed by her group. The preparation and use of helicenes and their congeners will be discussed.
